Medteks as a reliable and responsive stocking distributor, Medteks delivers parts that are:

- New - Factory - Fresh
- Immediately Available
- In Stock
- Ready - to - ship

Medteks Provides “on-time, very-time” delivery from inventory that includes:

- Production quantities of non-allocated products
- Obsolete and discontinued components
- Hard - to - find and heavily allocated parts

Medteks benefits our clients with strong support through our:

- Well-trained and knowledgeable staff
- Rapid-response quote system
- Just-in-time delivery and bonded inventory programs
- Strategic global alliance
- Commitment to Quality Control

In today's increasingly competitive marketplace, you need partners who can be there for you at every step of the supply chain. Medteks differentiates itself from its competitors by offering a comprehensive range of value added services that are designed both your company's productivity and profitability.

Our commitment in this area covers everything from providing expert sales and after-sales support at all Medteks sales facilities across World to investing state-of-the-art information systems you need to stay ahead. In addition to full Field Application Engineering (FAE) support and customer training seminars, we also offer a complete range of supply chain and design solutions capable of meeting the most complex needs of our valued customers.

Medteks has been helping companies drive down their procurement costs by offering the in-stock availability and state of the art IT infrastructure of a large scale supplier, with the value-added services, personal attention and responsiveness normally offered only by smaller suppliers.

The Medteks team is composed of experienced professionals, many with over twenty-five years experience in the business. As we've grown over the years, we have expanded our presence to include offices around the country, ensuring the best possible service for our customers.

In the coming years, Medteks will continue to grow while maintaining a strong market presence and our customer-centric foundation. We are constantly looking to the future and taking steps to ensure that we are prepared to handle your needs. We've gained our reputation by being a relationship driven organization. The Medteks team will go the distance to achieve the guaranteed satisfaction of our customers.

At Medteks we want to be your supplier of choice. That's why our mission is to create greater profitability for all of our supply chain partners. We strongly believe that an alliance partnership with Medteks can help drive down costs and boost your company's bottom line as we help build and manage your value-added supply chain programs. Our aim is to form relationships that last, so we work with you at all levels to create a plan to best suit the requirements and goals of your company.

We ensure that we succeed in our mission by constantly abiding by the following principles:

- **To maintain our market focus and customer centric foundation**
- **To listen, understand and exceed the needs and expectations of our customers**
- **To provide the highest quality products**
- **To conduct business with honesty, integrity and respect**
- **To provide the unparalleled customer service that customers around the globe have come to expect.**
